For Immediate Release:

Lion's Share Entertainment, Inc. was asked to provide field direction and producing for the filming of a new television series spearheaded by Los Angeles based production company, Film Garden Entertainment, for Spike TV.

The program is currently titled *Carmageddon* and is a cross between *Junkyard Wars* and a demolition derby. The show is a reality show about racing, building cars, and the drivers and crews that race them.

Each week 12 drivers are given a challenge and must then find a vehicle, fix it up and race it at the end of the week. Shot at the driver's garages and workshops, and culminating on race day at Orlando Speedworld, the twelve competitors are followed by film crews while they prepare their cars for each week's race day events...

The events are as off-the-wall as the show's title. ...Events that have included a taxi cab race (with a blindfolded driver), cars pulling boats on trailers, a school bus figure-8 race and a Motor-home demolition derby.

The program will air on Spike TV on beginning in January.
