

## Inventing the American Dream with *Inventor's Showcase*<sup>TM</sup>

Lion's Share Entertainment Inc., is an Orlando based television production company that specializes in bringing new products to the market. They are a creative company that uses "moving pictures" to sell. One of their current projects is *Inventor's Showcase*<sup>TM</sup>!

*Inventor's Showcase*<sup>TM</sup> is a great opportunity for inventors (and their inventions) to receive national television exposure. Nicknamed "The *American Idol* for Inventors", each week 10 contestants will be given an opportunity to show their product's attributes as well as their personality in front of the world. *Inventor's Showcase*<sup>TM</sup> will be a weekly, reality-based competition program, spanning 13 episodes, introducing the world to 130 ambitious inventors and their creations. Each contestant has the potential to become a huge success. Inventors also have a chance at the grand prize-- funding for the realization of their product along with a contract with an infomercial or distribution company to take the winning invention to market.

*Inventor's Showcase*<sup>TM</sup> will be a sneak peak into future consumer products, and where an unknown person can have a chance to achieve fame and fortune by creating a successful invention or enterprise and have their American dream become reality.

For information on how to become a part of *Inventor's Showcase*<sup>TM</sup>, call 407-224-6431, or visit the Lion's Share Entertainment, Inc. website at [www.lions-share-ent.com](http://www.lions-share-ent.com).
